

**More Than Oil,  
It's a Pure Flavor Revolution.**

**Plant-based Flavored Oil**

**botanova®**

**—Lard Taste—**

2lb (908g)  
Other Size: 11lb (5kg)

Rich, savory pork flavor enhances products with deep taste.

Ramen

Dumpling

Fried rice

Mayonnaise

Reproduces aroma  
of animal fat on a plant basis.

Enhances richness  
and flavor of cuisine.

Ingredients: Palm oil, Flavored oil (Canola oil, Rice bran oil, Natural flavor), Mix tocopherol.

● No animal-derived ingredients are used. ● Products containing animal-derived ingredients are manufactured on the same line. ● Made in Japan.

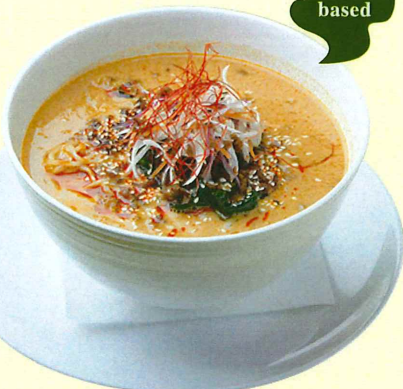

# Chef's Comment

Plant-based

## Soy Milk Dandan Noodles

The aroma of botanova® -Lard Taste- was strong, like when regular lard is fried, but since lard is almost always used with heating, strong aroma was never a problem. And the dish finished just like using regular lard.

## Basque-style Soup with Vegetables and Soy Meat

botanova® -Lard Taste- can be used as a substitute for lard when making confit and other French dishes.

## Roasted Dry-aged "Danshaku" Potatoes

I used botanova® -Lard Taste- to Sunday roast potatoes. It can bring out the flavorsome component of ingredients in something that you wouldn't normally see with a neutral oil.
